R100 Ivans Amethyst	AN033993D	1	1002	365	5.02	4.43	Mrs J Scales

Alterations to Officially Recorded Yields

It has come to our attention that some of the historic (pre-Grassroots) yields that goats have been credited with are incorrect i.e. some goats have been credited with milk figures indicating their extended lactation instead of the 365 days. Other goats on the list have achieved a higher figure at a subsequent lactation but this has not been updated to acknowledge the higher yield. As these milk figures have been corrected on Grassroots we are also publishing them in the Herd Book so the information is available to all.
